

WE WANT YOU !

to work with us in Barcelona !

MARKET-CONTROL
knowledge for you

INTERNSHIP JUNIOR PROGRAMMER PHP

ABOUT US

Market Control is a young and upcoming enterprise with headquarter in Barcelona. The core of the company, established ten years ago by a German entrepreneur in Catalonia, is the development of software solutions for sales optimization for companies in the consumer goods and pharmaceutical sector or for market research studies. We are looking for a trainee who likes to support us in marketing/sales for a duration of at least five months. We offer a monthly salary on a full-time basis for your internship.

WHAT WE OFFER

YOUR TASKS

We are looking for you to assist us in developing and managing customized functionalities such as setting up individual demo versions for our Spanish and international clients. You will work together with experienced software developers and consultants to support them in their daily tasks regarding technical support for our clients.

YOUR SKILLS

- You are studying a computer science related subject or have similar experience.
- You dominate the programming languages PHP and MySQL.
- You have worked with jQuery as well as UIX.
- You enjoy project-based work and like to work in small and enthusiastic teams.
- You have outstanding English skills (both written and oral). Other language skills, especially in Spanish, German or French are advantageous.
