

WE WANT YOU !

to work with us in Barcelona

INTERNSHIP CUSTOMER SUCCESS & MARKETING

ABOUT US

Market Control is a young and upcoming enterprise with headquarter in Barcelona. The core of the company, established eleven years ago by a German entrepreneur in Catalonia, is the development of software solutions for sales optimization for companies in the consumer goods and pharmaceutical sector. We are looking for a trainee who likes to take an active role in our daily Customer-Success-Management for a duration of at least six months. We offer a monthly salary of 500€ on a full-time basis for your internship.

WHAT WE OFFER

YOUR TASKS

Our mission at Market Control is to provide the best service and sales support to our customers. Together with the Client Success Manager you will be the direct contact person of our end users to assist them in their daily sales business. You will be trained to operate in the complex field of our SaaS solution and gain a deep understanding to navigate yourself through our web platform and app. You provide phone and web support in English and Spanish, learn about our clients' concerns and enjoy finding individual solutions. Additionally, you interact with our marketing and sales department to push forward our Europe-wide expansion.

YOUR SKILLS

You study an economic subject, preferably with a focus on marketing, sales or data science. You have already gained some professional experience in the field of marketing, sales or data management. You enjoy project-based work, do not shy away from excel spreadsheets and like to work in small and enthusiastic teams. You have outstanding English skills (both written and oral). Other language skills, especially in Spanish and French or even Dutch are advantageous.

REQUIREMENTS

You are enrolled at university during the full period of the internship and have successfully completed at least two years of your bachelor's degree or already started your master's degree. Please attach a motivation letter with your availability, your CV, enrolment certificate and, if applicable for your home country, a valid work and residence permit.
